31a Aguntasalo street, ijsha, Surulere, Lagos.

ABOUT ME

I am a goal-oriented computer engineering undergraduate with an unwavering passion for problem-solving and creating solutions that can help and impact lives. With my knowledge of engineering, I can solve engineering problems ranging from software to hardware-related issues and also problems relating to other aspects of engineering.

EXPERIENCE

Trainee Engineer

Electrolife

10/2019 - Covenant University, Ota, Ogun State.

electrolifecu@icloud.com

A tech store that offers affordable services to clients ranging from issues related to repairs and purchase of electronics of any kind.

- As a trainee engineer I could diagnose both software and hardware related issues and determine the best possible solution to fix the issue at hand.

Student Work Experience Programme (SWEP)

Covenant University

06/2019 - 07/2019 - Covenant University, Ota, Ogun State, Nigeria.

- I learned how to be a part of a team and how to work alongside with people having the same goals.
- I was able to understand the components of what a building should be made of along with the components required to lay a foundation.
- I understood the process of lighting in buildings and how to arrange a circuit to provide lighting for an apartment.

EDUCATION

Undergraduate, Computer Engineering
